

Rule No. 9

RENDERING AND PAYMENT OF BILLS

A. Rendering of Bills

Bills for service will be rendered to each customer on a monthly or bimonthly basis at the option of the utility, unless otherwise provided in the rate schedules.

At the customer's request, the utility may be requested to provide either paper or electronic bills for service, but not both.

(N)
|
(N)

The customer may elect to receive and view regular bills for service and other legal and mandated notices electronically and to no longer receive paper bills and legal and mandated notices. Customers requesting this option may be required to complete additional forms and agreements. Legal and mandated notices shall be included with the utility's electronic means of bill delivery; except, however, all notices of termination of service shall be made in accordance with Rule No. 8. The customer may discontinue electronic billing upon 30 days prescribed notice.

1. Metered Service

- a. Meters will be read at regular intervals for the preparation of periodic bills and as required for the preparation of opening bills, closing bills and special bills.
- b. The opening bill for metered service will not be less than the established monthly minimum or readiness to serve charge for the service. Any amount paid in excess of the prorated charges otherwise applicable to the opening period will be credited against the charge for the succeeding regular billing period, except that no such credit shall accrue if the total period of service is less than one month.
- c. It may not always be practicable to read meters at intervals which will result in billing periods of equal number of days.
 - (1) Should a monthly billing period contain less than 27 days or more than 33 days a pro rata correction in the amount of the bill will be made.
 - (2) The charge for metered service for a bimonthly period will be computed by doubling the monthly minimum or readiness to serve charge and the number of cubic feet to which each block rate is applicable on a monthly basis.

Rule No. 9

RENDERING AND PAYMENT OF BILLS
(Continued)

1. Metered Service (Continued)

(3) For billing periods other than monthly or bimonthly adjustments will be made proportionate to that for a monthly billing period.

d. Bills for metered service will show at least the reading of the meter at the end of the period for which the bill is rendered, the meter constant, if any, the number and kinds of units, and date of the current meter reading.

e. Each meter on a customer's premises will be considered separately and the readings of two or more meters will not be combined except where combination of meter readings is specifically provided for in the applicable rate schedule, or where the utility's operating convenience or necessity may require the use of more than one meter or a battery of meters. In the latter case, the monthly minimum or readiness to serve charge will be prorated from the monthly minimum or readiness to serve charges of the applicable rate schedule upon the basis of a meter size equivalent in diameter to the total combined discharge areas of such meters.

2. Flat Rate Service

a. Bills for flat rate service are payable in advance.

b. The opening bill for flat rate service will be the established monthly charge for the service. Any amount paid in excess of the prorated charges otherwise applicable to the opening period will be credited against the charge for the succeeding regular billing period, except that no such credit shall accrue if the total period of service is less than one month.

c. For billing periods other than monthly, the charge for flat rate service will be computed by multiplying the monthly charge by the number of months in the billing period.

3. Proration of Bills

a. The charges applicable to opening periods, closing bills and bills rendered for periods corresponding to less than 27 days or more than 33 days for monthly billing periods will be computed as follows:

Resolution No. W-4908

Rule No. 9

RENDERING AND PAYMENT OF BILLS
(Continued)

3. Proration of Bills (Continued)

(1) Metered Service

The amount of the minimum charge (and the quantity allowed therefor) or the readiness to serve charge and the quantity in each of the several quantity rate blocks will be prorated on the basis of the ratio of the number of days in the period to the actual number of days in the month. The measured quantity of usage will be applied to such prorated amounts and quantities.

(2) Flat Rate Service

The billing period charge will be prorated on the basis of the ratio of the number of days in the period to the actual number of days in the month.

B. Payment of Bills

1. Bills for service are due and payable upon presentation and payment may be made at any commercial office of the utility or to any representative of the utility authorized to make collections. Collection of closing bills may be made at the time of presentation. A late fee of \$10.00 will be added to all customer accounts whose water bill payments have not been received by the time their next regular bill is generated. (N)
